## Part I

# Observer Status in OCCAR Managed Programmes

---

### **Purpose**

1. To set the policy for granting observer status to non-participating States in OCCAR managed programmes.

### **Decision making on observer status**

2. In application of Article 12(h) of the OCCAR Convention the representatives to the BoS shall approve all requests for observer status for OCCAR managed programmes. Consistent with the Convention, this decision shall be taken by unanimity. All future Programme Decisions shall contain a provision reflecting this requirement.

### **Factors to take into account when considering requests**

3. The general factors to be taken into account are the consequences for OCCAR of the introduction of an observer State with regard to workload, administrative budget and organisation. To avoid unforeseen consequences, the granting of observer status shall, in principle, be limited to a period of 2 years (with a possibility of extension).
4. In principle, requests from non-participating States to observe an OCCAR programme should be granted if there is a likelihood of the observer joining the programme as a Participant. Observer status might also be permitted if the State is considering making a third party purchase in order to encourage that State to participate in an OCCAR managed programme in the future.
5. Taking into account, inter alia, these factors, the BoS shall decide upon and determine the exact status of observership on a case by case basis.
6. All States granted observer status in an OCCAR managed programme shall be required to state formally their clear interest in future participation in the programme or to purchase off the shelf the system developed under the programme and to sign a non-disclosure agreement.

### **Handling requests for observer status**

7. Requests from States to be granted observer status shall be submitted formally from the State concerned to the Chairman of the BoS. Requests received through other channels shall be politely returned with advice on the correct procedure to follow. To take the matter forward, the BoS Chairman shall then consider the request with BoS colleagues. Once the decision is taken by the BoS, the Chairman shall reply to the request on behalf of the BoS.
8. The request shall be subject to a two step process:
  - 1) The participating States in the programme (both OCCAR Member States and non-Member States where applicable) shall give their advice at BoS or Programme Board level.

- 2) The BoS shall give its final decision.

Each step requires that every State must give its view and, in the case of a rejection of a request for observing, explain the rationale for its decision. Subject to specific programme agreements the position of the non-Member States participating in an OCCAR managed programme will be treated in an equal basis to the Member states. The BoS cannot approve a request for observership if there is an objection from a non-Member State participating in the Programme.

9. Taking into account all impacts on the respective programme and on OCCAR as a whole, the BoS shall give the specific definition of the observer status in each case in its response.

## **Part II**

### **Observer Status for OCCAR non-programme business**

---

1. Requests to observe OCCAR business from prospective members would be dealt with in the same manner as requests to observe OCCAR Programmes (see Part I).
2. Decision on requests to observe specific parts of OCCAR business to meet a particular need (e.g. to improve inter-organisation understanding) are delegated to the OCCAR-EA Director who may seek the advice of the FTPC depending on the degree of sensitivity associated with the request.
3. Such specific requests would be met by providing relevant information and possibly granting permission to attend meetings appropriate to the request. The decision as to the amount of access will take into account the nature of the request, the interaction between OCCAR and the requesting nation, and the need for OCCAR to be seen to be open to others.
